RATIONALE	I am special and even though I know I am responsible for looking after myself I know that there are other people who can help me as well.	By understanding how we grow, change and learn we can help ourselves to be the best that we can be.	In order to recognise and be confident about our own identity, we need to feel supported and cared for by the people around us and the community in which we live.	It's only through capitalising on my strengths and challenging my weaknesses that I can achieve my own emotional, social and physical greatness.
